Integra Floors

**Sector :**  
Leisure

**Product :**  
Van Gogh, Bracken  
(VG1-7)

**Area :**  
1283m<sup>2</sup>

Just 20 minutes from the heart of Surfers Paradise, the Australian Outback Spectacular has entertained over a million people from all around the world, since opening its doors a few years ago.

When building this great tourist attraction, Ken Spiller, the Group Project Manager could not go past Karndean's Van Gogh range. Ken commented **"the major benefits of Karndean were its' low maintenance requirements, its' easy to clean characteristics and the fact that it looked so good."** Further to this Karndean design flooring range is also extremely hard-wearing, making it ideal for tourist attractions such as this.

After using Karndean the owners said **"we would definitely recommend the product and would use it in other similar venues that have a high amount of foot traffic."**
